۴	<p>متن زیر را بخوانید و به سوالات داده شده هر قسمت پاسخ دهید.</p> <p>Children are taught to respect elders in their society by their parents at very young ages. Throughout school and university, they are reminded of them while they grow up. But still, many often forget to respect their elders. Respecting the elders should come from within. As well all know, history repeats itself. Thus, if we respect our elders today, we will be respected when we grow old.</p> <p>Talking about respecting the elders is not enough. We do need to take some actions to show it to them in action. Firstly, we, younger generations, should repeatedly visit our elders and invite them to our houses. In this way, they feel more valued and respected. Secondly, if you live too far from your elderly loved ones to see them on a regular basis, pick up the phone and call them. In our busy lives, it's easy to forget just how much it will mean to an elderly person if we take time out of our day to say 'hello'. They don't feel lonely and forgotten. Thirdly, they should be kindly asked to share their thoughts and ideas when we are making a decision about life issues. In fact, we can benefit from their valuable experience and wisdom. Last but not least, we should show our appreciation to the elderly people by listening to them and valuing their life stories which are full of great lessons for us. As a result, we can make better decision and avoid the mistakes they once made. I think respecting our elders is a win-win case. That is to say, it enriches our lives and makes them live a healthier life.</p>	۱۳

The three major types of energy for electricity generation are fossil fuels, nuclear energy, and renewable energy sources.</p> <p>Natural gas was the largest source—about 38%—of U.S. electricity generation in 2021. Coal was the second-largest energy source for U.S. electricity generation in 2021—about 22%. Petroleum was the source of less than 1% of U.S. electricity generation in 2021. Nuclear energy provides about one-fifth of U.S. electricity. Nuclear energy was the source of about 19% of U.S. electricity generation in 2021. Nuclear power plants use steam turbines to produce electricity from nuclear fission.</p> <p>Renewable energy sources provide an increasing share of U.S. electricity. Many renewable energy sources are used to generate electricity and were the source of about 20% of total U.S. electricity generation in 2021. Hydropower plants produced about 6.3% of total U.S. electricity generation and about 31.5% of electricity generation from renewable energy in 2021. Wind energy was the source of about 9.2% of total U.S. electricity generation and about 46% of electricity generation from renewable energy in 2021. Wind turbines convert wind energy into electricity. Biomass was the source of about 1.3% of total U.S. electricity generation and about 6.7% of electricity generation from renewable energy in 2021. Solar energy provided about 2.8% of total U.S. electricity and about 13.5% of electricity generation from renewable energy in 2021. Most solar-thermal power systems use steam turbines to generate electricity. Geothermal power plants produced about 0.4% of total U.S. electricity generation and about 2.0% of electricity generation from renewable energy in 2021.</p> <p>Tick True or False after each sentence.</p> <p>46. ۳	<p>متن زیر را بخوانید و به سوالات داده شده هر قسمت پاسخ دهید.</p> <p>For both teachers and students, a dictionary is one of the most important sources. Thus, to choose a suitable dictionary, you should consider a wide range of factors.</p> <p>Ask yourself this first. Do I want a monolingual or a bilingual dictionary? A monolingual dictionary is in English only; a bilingual dictionary translates into another language. Generally, for learners of English, a bilingual dictionary is most useful, but as they become more advanced, a monolingual dictionary is more helpful. However, for teachers a monolingual dictionary is perhaps more useful. Think if you want a learner's dictionary or one for native speakers. A learner's dictionary has simpler explanations. This is useful in the classroom and it means that your students will be able to look up words on their own. If you have your students use a monolingual dictionary for native speakers, they may not understand the explanation they read. Examine if the dictionary includes extra information aside from a basic definition. It will need to have a pronunciation guide and it's also useful to have some basic grammar information as well. You should also consider the size, price, and the date of publication. When you're expected to take it from home to work each day, size of the dictionary is of higher importance! To conclude, you should take time and think enough before buying a dictionary.</p> <p>Tick True or False after each statement.</p> <p>52. Teachers are suggested to buy a bilingual dictionary. a. True b. False</p> <p>53. A dictionary for native speakers explains things in a simpler way. a. True b. False</p> <p>Choose the best answer.</p> <p>54. According to the text, which type of dictionary is more useful for more advanced learners? a. monolingual b. bilingual c. pocket d. online</p> <p>55. آزمون شنیداری زبان انگلیسی ۳، پایه دوازدهم، تمامی رشته ها، اردیبهشت ماه ۱۴۰۲

دانش آموزان عزیز، آزمون شنیداری داری ۴ بخش می باشد. در ابتدای هر بخش و قبل از شنیدن هر متن، به دقت به دستورالعمل سوال گوش دهید، سپس سوالات مربوطه را خوانده و از شیوه پاسخگویی مطمئن شوید. هر متن سه بار تکرار خواهد شد و در پایان هر بخش به شما ۳۰ ثانیه فرصت داده خواهد شد که به پرسشهای هر بخش در پاسخنامه جواب دهید.

متن شماره ۱

دانش آموزان عزیز، در این بخش به مکالمه بین پرهام و خواهرش پردیس درباره «اتومبیل های الکتریکی» گوش دهید، سپس گزینه صحیح (True) یا غلط (False) را انتخاب کنید.

Parham: Pardis, do you know that many countries now think that cars that burn fossil fuels should be replaced by electric cars?

Pardis: Yes Parham, but what is the reason behind it?

Parham: Well, electric cars don't burn gasoline in the engine, so they don't pollute their.

Pardis: How do they move around if they don't use gasoline?

Parham: They use electricity stored on the car in batteries.

Pardis: How many batteries are in an electric car?

Parham: Sometimes, 12 or 24 batteries, or more, are needed to power the car.

Pardis: How do they work?

Parham: To get the battery ready to roll, you have to charge it. This process isn't much different from the way you charge the portable devices you carry around every day: your cell phone, MP3 player, or digital camera.

Pardis: Is there any difference?

Parham: The only difference is that you deal with a much bigger gadget that carries you around instead!

متن شماره ۲

دانش آموزان عزیز، در این بخش به مکالمه بین زهره و ساحل گوش دهید، سپس گزینه مناسب را انتخاب کنید.

Zohreh: This weekend is my birthday; I have invited everyone but Mina.

Sahel: Why not? If I were you, I would certainly invite her, as far as I know, you were a close friend at school.

Zohreh: Yes, but she has moved to another neighborhood. If I had her address, I would invite her.

Sahel: What a pity! If I knew that sooner, I could help you.

Zohreh: How?

Sahel: I could check it with my sister. She is her mother's friend.

متن شماره ۳

دانش آموزان عزیز، در این بخش به مکالمه بین زینب و سمانه در یک «کتاب فروشی» گوش دهید، سپس جاهای خالی را با کلمات مناسب را کامل کنید.

Zeynab: Come here Sameneh. I will show you the dictionary you need.

Samaneh: Really, thank you Zeynab! I think you are happy, aren't you?!

Zeynab: Yes! Bookshops are places of magical discoveries and the rediscovery of past pleasures. In fact, any bookshop makes me very happy.

Samaneh: It is not surprising that you are the best student in the class!

Zeynab: Thanks for your nice complement! And now let me show you what you need. I recommend a learner's dictionary.

Samaneh: What is a learner's dictionary?

Zeynab: It is designed for foreign students. It also helps them learn English better.

Samaneh: Is there only one type of it?

Zeynab: No, in fact dictionaries have different types, levels, and sizes.

Samaneh: What type do you suggest?

Zeynab: I suppose a monolingual dictionary is more suitable for you, because you can find word information in English.

Samaneh: And what about levels?

Zeynab: Well, there are usually three levels: elementary, intermediate and advanced. For you as a high school student, an elementary one is OK.

متن شماره ۴

دانش آموزان عزیز، در این بخش به یک متن درباره «سلامتی» گوش دهید، سپس جاهای خالی را با کلمات مناسب کامل کنید.

The greatest gift you can give to your family and the world is a healthy you.

If you stay physically healthy, you will stay mentally healthy, too. Physical and **mental** health are linked strongly. If you are able to keep your bodies fit and healthy by taking the right food and doing physical activities regularly, your body will definitely help you to manage daily **stress**. You also need to live **calmly** and lower your stress by controlling yourself and by learning to **forgive** others.

Your food is the leader of your body cells which are made up of a variety of chemical substances. The food should be in high quality to help your cells to function **effectively**. For living a healthy lifestyle, good diet is one of the best things you should make habit of. If you combine good diet with regular physical activities, you are able to maintain a healthy weight which may reduce our risk of diseases like **heart** disease and cancer.
